WHAT'S MOST
IMPORTANT

TIMELESS PRINCIPLES ARE THE BACKBONE OF THE LASTING INVESTMENT

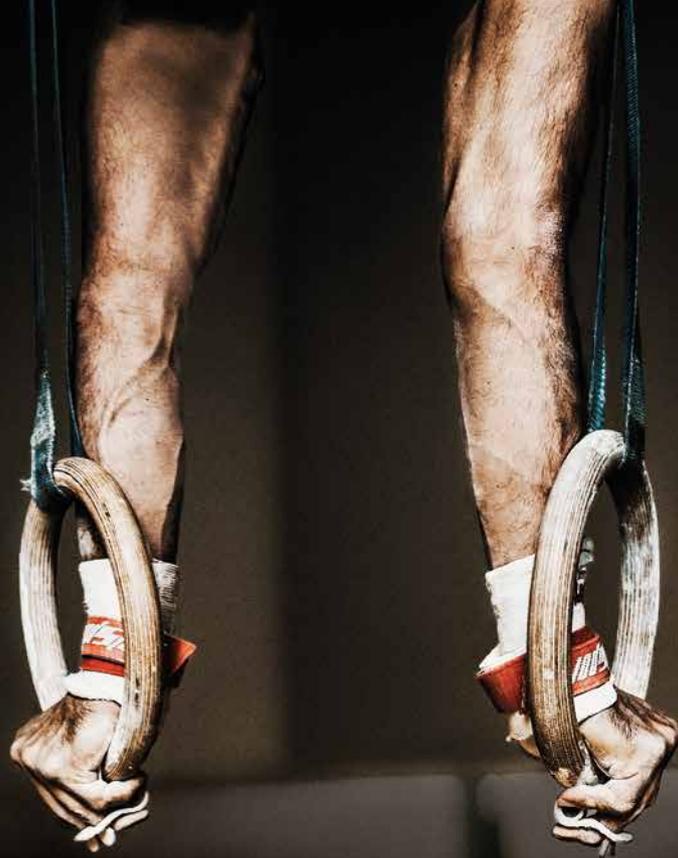

The financial world is full of investors chasing short-term profits. We resist this temptation.

We dare to be different – to deviate from consensus thinking and from underlying benchmark constraints. Occasionally this can be a humbling experience as market sentiment sways.

Long-term client partnerships are the core of our business – clients that share our ambitions and our passion for long-term fundamental stock picking. Clients which invest their assets and trust in our teams to deliver long-term world-class results.

Our goal is to identify lasting investments – the long-term opportunity, based on long-term trends and themes. Achieving this goal requires a consistent belief in our timeless principles – namely patience, diligence and focus.

However, the ability to capitalise on long-term trends and themes is not enough. Just as important is idea generation and the skill and experience to translate these ideas into a diversified portfolio. Ultimately, the underlying stock-specific exposures make the difference and hence generate investment returns.

STABILITY
IS ABOUT FOCUS
AND OUR
COMMITMENT
TO EXCELLENCE

PASSION FOR WORLD-CLASS RESULTS

We are motivated by our overarching goal of delivering superior long-term investment results to our clients around the world.

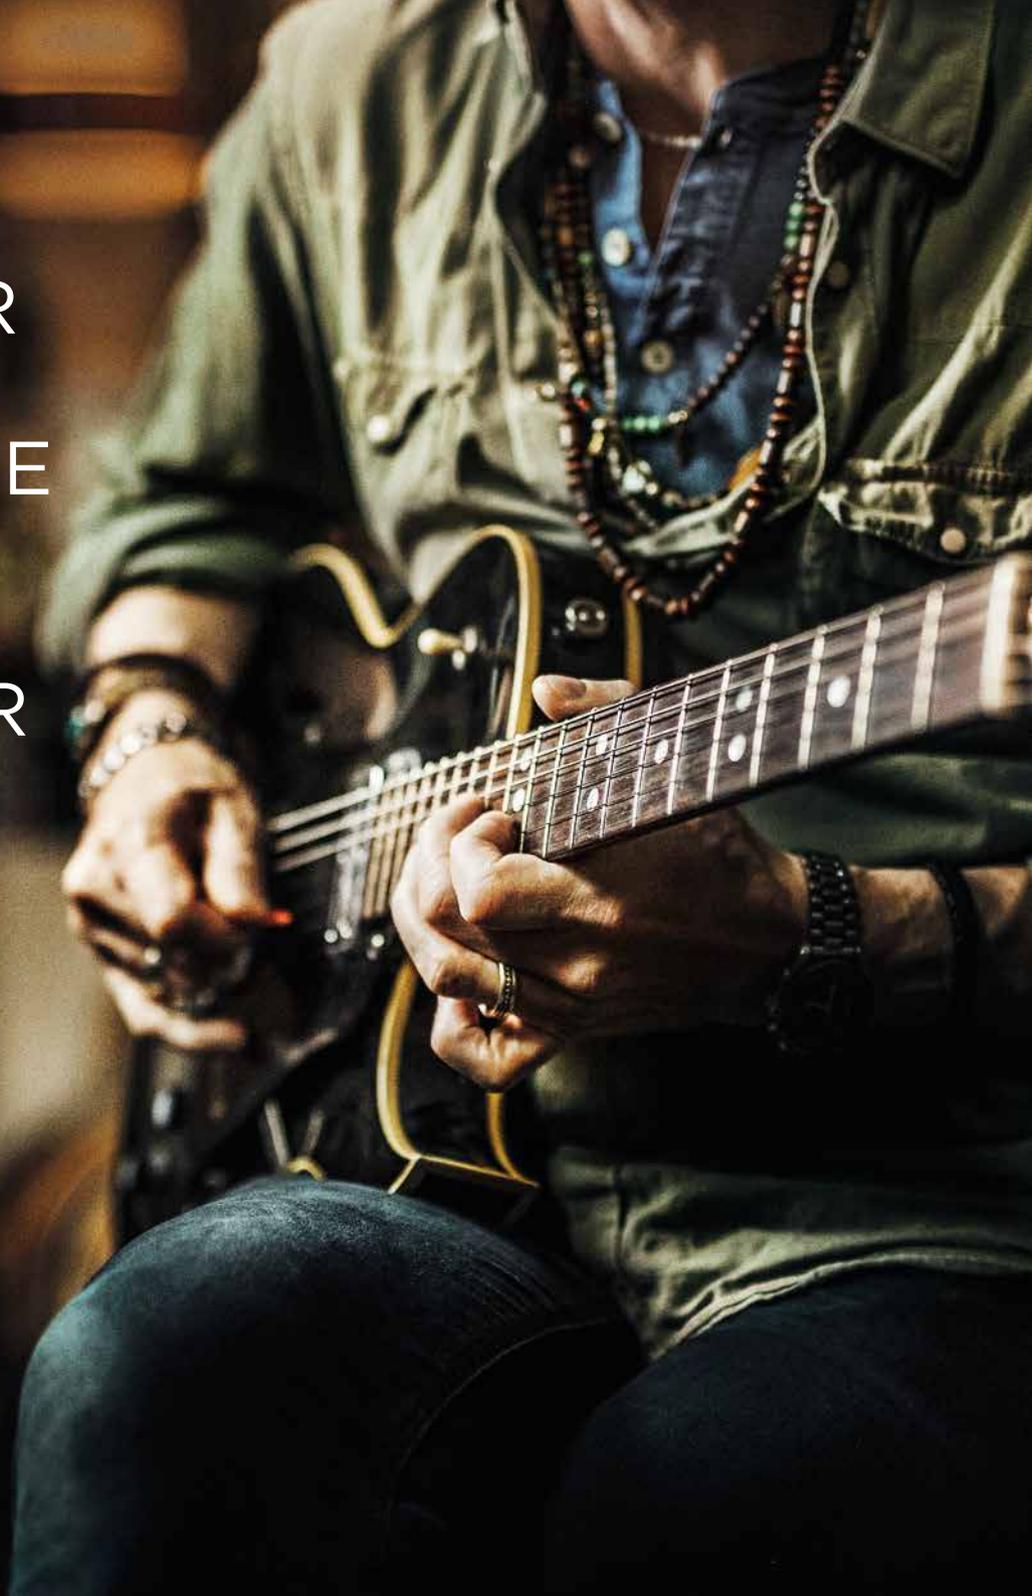

We are stock pickers. We believe that market beating results over the long-term are rooted in fundamental investing in a concentrated portfolio. In addition, and more relevant than ever, is our underlying thematic approach which supports our conviction levels.

Like skilled artisans, we constantly fine-tune our efforts but never stray from our core beliefs. Portfolios are optimised continuously. A focused portfolio results in a disciplined buy and sell approach based on the "one in/one out, better alternative," principle.

The core of our team has remained the same since the beginning – a foundation that gives us one of the most stable and experienced investment teams in the industry. A unique team-based decision process coupled with a consistent investment philosophy are the key attributes of our unique culture.

Ongoing and close dialogue with our clients is key to our long-term partnerships. We emphasise openness and transparency and frequently share our thoughts and insights on the most important market and investment trends.

IT IS NOT
ONLY OUR
AMBITION
TO CREATE
STRONG
RETURNS
- IT IS OUR
PASSION

SINCE 1986 - COMMITTED TO SUCCEED

We live in a contradictory and changing world. A world where growth is becoming increasingly difficult to identify.

The global economy is more diverse than it has been for many years. Some countries and regions are in recession, while others are growing.

This dispersion creates a favourable set of opportunities for the active investor.

At C WorldWide Asset Management we have been committed to our proven strategy and core beliefs since the beginning.

Selective stock picking coupled with thematic tailwinds and a long-term investment horizon is where we make the difference for you.

We look forward to sharing our values with you.
