Positioning for Decades of Alpha

High conviction global stock picking

The financial world is full of investors chasing short term-profits. We resist this temptation by ensuring a long-term perspective to identify the best opportunities worldwide.

We navigate these complex and diverse global stock markets by identifying global trends and themes. This supports our efforts in selecting what is relevant, but also what to avoid for the long-term investor.

Our philosophy is anchored in our core belief that long-term thinking wins in an investment world where short-term thinking rules. Identifying generational, multi-decade trends is the foundation of the C WorldWide Centuria strategy. We dare to be different. Our extensive global experience allows us to deviate from consensus thinking and focus on what is most important.

Selecting the best companies for you

A concentrated portfolio ensures that every single stock we select makes a difference to your investment returns. Our experience in managing focused portfolios has shown that a carefully constructed portfolio of 25 to 30 high conviction stock picks ensures sufficient risk diversification.

C WorldWide Centuria is a global, diversified portfolio which will focus on small, mid and large cap growth companies, which at time of purchase, will typically have a market capitalization of USD 2 to USD 30 billion

We are looking for companies which ideally are market leaders and operate in fast growing addressable markets. The companies selected have exposure to strong generational trends and

have above average revenue and earnings growth prospects, and at the same time have a sustainable approach to capital allocation founded in a strong culture.
