

GLOBAL EQUITIES

Global investments that make a difference

High conviction global stock picking

The financial world is full of investors chasing short term-profits. We resist this temptation by ensuring a long-term perspective to identify the best opportunities worldwide.

We navigate these complex and diverse global stock markets by identifying global trends and themes. This supports our efforts in selecting what is relevant, but also what to avoid for the long-term investor.

We dare to be different. Our extensive global experience allows us to deviate from consensus thinking and focus on what is most important.

Selecting the best companies for you

A concentrated, actively managed portfolio ensures that every single stock we select makes a difference to your investment returns. Our experience in managing focused portfolios has shown that a carefully constructed portfolio of 25 to 30 high-conviction stock picks ensures sufficient risk diversification.

We believe that earnings growth is the key long-term driver of share prices. Our skills and expertise to capita-

lise on long-term trends and thematic tailwinds help us capture the sustainability of this earnings growth.

We have one of the most stable and experienced global investment teams in the industry. This together with our consistent and transparent investment approach has delivered successful results for our clients over the long term.
